Hi Sue

Yes, the change was in the harvested record from LSE. LSE are the publishers of this resource and we take their metadata as being correct. LSE's record (including a citation for the resource with a date of 1983) can be found here: <http://etheses.lse.ac.uk/3976/>

Hi Heather

Back to the President of Taiwan Phd thesis!

The date of award has been changed from 1984 to 1983. Have we picked up the new date from the record held in LSE's repository? Also, after looking at the thesis text, the thesis was submitted in 1983 but not awarded until 1984.

Cheers
Sue

Hello Ms. Johnson,

When I submitted my inquiry about No. 652034: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652034>, the EThOS record showed the date of award was 1984. However, today I surprisingly found the date of award had been changed to 1983. Would you please advise how such change would happen?

Use this URL to cite or link to this record in EThOS: <https://ethos.bl.uk/OrderDetails.do?uin=uk.bl.ethos.652034>

Dear

EThOS receives Doctoral thesis data from the awarding institutions and most of the time we receive the metadata of the thesis first.

The full text of the thesis you are querying is now available from EThOS via a link to LSE repository.

Kind regards

Sue

Hi Ms. Johnson,

Thanks for your response. In what circumstance can a thesis be submit to EThOS 35 years later?

Also I found this theis did not exist in Senate House Library of LSE, nor the IALS Library in 2015.

Was there a special event so that EThOS accept a thesis with title only, not with an actual copy?

Dear [REDACTED]

When a record of a UK Doctoral thesis is loaded on ETHOS we allocate a unique running number to each thesis. The thesis records you have listed, were all loaded on ETHOS 24/06/2015.

Kind regards

Sue

Subject: Item Entry Date of a Thesis

Hello,

I see there is a serial number in each thesis' link. For example,

No. 652031: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652031> (date of award is 2014.)

No. 652032: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652032> (date of award is 2014.)

No. 652033: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652033> (date of award is 2014.)

No. 652034: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652034> (date of award is **1984**.)

No. 652035: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652035> (date of award is **2013**.)

No. 652036: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652036> (date of award is **2007**.)

No. 652037: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652037> (date of award is 2014.)

No. 652038: <https://ethos.bl.uk/OrderDetails.do?did=1&uin=uk.bl.ethos.652038> (date of award is 2014.)

Does it mean, for instance, the entry No. 652034, 652035, and 652036 was registered into the system some time after 2014?
