Dear PhD Academy Deputy Director

According to your PhD planning every PhD must spend at least one year for MPhil and she also must passed required exam on the second year.

Can you explain my doubt?

1. she enter your university on 1981, and she did finished all requirement in one year.
2. did she pass all requirements exam for entry PhD, or she did not need taking any exam on 1982?
3. What is the PhD student supervisors qualification? can a undergraduate person be a PhD student supervisors?
4. PhD student did not need take any course in 1981.

I got my PhD degree need pass qualified exam, got enough courses credit, submit my research to the journal, and finished my dissertation.

your university did not need these kind of procedure.

She is our president and I want to know she is qualified or not.

your university also is a good university, and I trust your faithful.

Thanks for your help
